MAKING THE BEST USE OF TIME

**AN INDEPENDENT

“Harnessing the power of many”

Leadership takes effort, dedication and a commitment to improve and learn.

What does it mean to be a leader? It means readily “putting oneself at risk” and being willing to “stand out in a crowd.”

Leaders aren’t content with the status quo; they are driven to create meaningful change. While others fixate on limitations, leaders perceive opportunities. They are responsible yet daring, humble yet inspiring.

By caring about those around them, they “liberate the ideas, energy and capacities of others.”

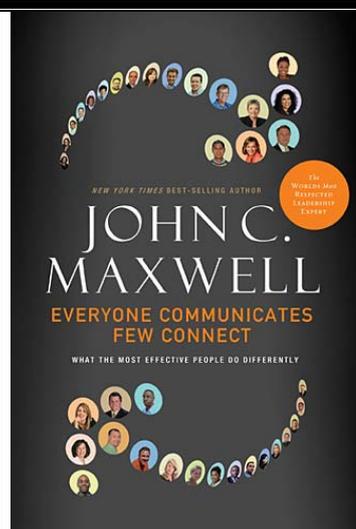

“Success is not a destination”

Success is not a destination. It is a process – a lifelong strategy of building on strengths, minimizing weaknesses, and focusing on the people and points of life that are most important.

In *How to be a REAL Success*, John Maxwell will help you understand the keys you need to succeed in life.

Whether you are a civil servant or a corporate executive, you will achieve great things by understanding four very important success building areas: Relationships, Equipping, Attitude, and Leadership.

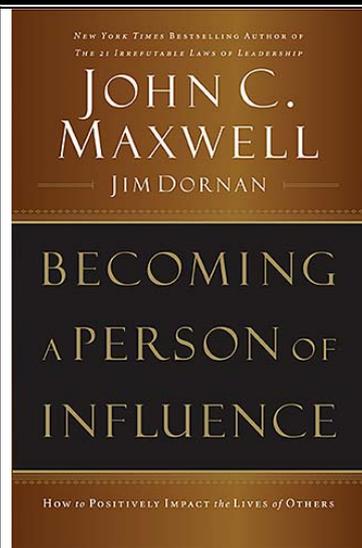

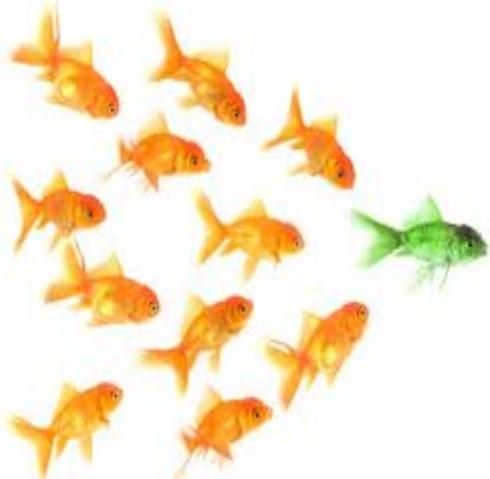

“Connecting to others is a powerful tool”

“Talk is cheap. Everybody does it. The question is, how can you make your words matter and influence any outcome? How can you really connect with others?”

In a world where communication is lightning fast and every moment of every day is seemingly saturated with messages, how can you make sure your message connects with its target?

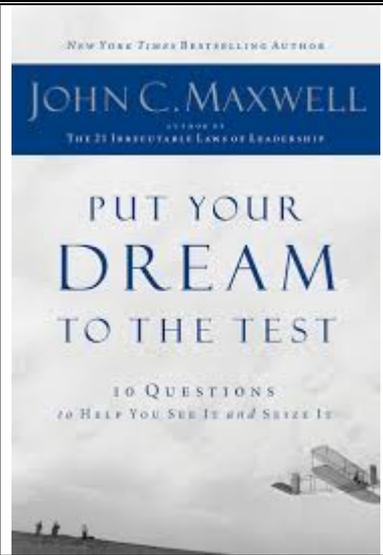

Do you even understand what connecting really means?

Worthy communication puts everyone on the same frequency.

“A dream will become servant to a great planner”

Dreams only remain dreams when they remain in your heart and your head.

You need to find ways of putting your dream to the test; secondly you need to have a plan to act upon.

Anyone can configure a plan, but the questions is can the foundation of your plan uphold your dream and can the foundation handle the earthquakes, storms, draughts and changing seasons that the market places produces?

The wise work on these questions before they become reality.

“Today is waiting for you to create a better tomorrow”

One of the major keys to success is the ability to keep on moving forward on the journey called “Today”

Today is a canvas filled with a variety of challenges, of likes and dislikes – the paintbrush of decisions is in your hands, paint it until you have the picture that you have purposed for the day.

Making the best decisions and the best use of time will always create an environment wherein the road to success is guaranteed.

What you do daily will determine where you are going long term.

My today will be my gold mine, I choose to make today matter
